Walk lasted between 12:00 and 13:55

This walk started slow but picked up steam half-way through and we wound up getting 24 species, 2.1 more than the prediction and only 3 short of the record for the week. We were happy to see George Rossman back for his annual walk between Christmas and New Year's. Except it was after New Year's, since we didn't walk last week. He accommodated. We were also happy to see Allison Roberts join the walk. I think she mostly hangs out in Australia, so it was good to see her. It was also good to see the Snowy Egret stayed around from the last walk, as well as a Cassin's Kingbird and an Oak Titmouse. It's a nice walk.
