Walk lasted between 12:00 and 14:10

We had a super walk! We observed 28 species, which tied the record for the week. The prediction was for 21.7, so we blew that away. What helped in that regard were the 4 species that had zero probability. Our best bird was the Snowy Egret, which had skipped Caltech this season until now. Hope it sticks around for a few weeks. Other good birds were the Redbreasted Nuthatch, the Oak Titmouse, and the Spotted Towhee. Great walk.

Alan,
