Walk lasted between 12:00 and 14:15. Tournament Park was closed.

Spectacular walk! Chris and Judi arrived at the meeting point pretty excited. They had crossed through campus on their way to start the walk and reported that there were four Snowy Egrets on the Ramo Pond. And they were still there when the group got to that point on the walk. I am sure we've never seen four egrets on campus at the same time. We came within one species of tying the record for the week. We observed 32 species. Anything 30 and over makes for a fantastic walk and this was one of those.
