Walk lasted between 12:00 and 13:55. Tournament Park was open.

This was a nice walk. We hit my prediction, which was 24.8 birds. Statistical probability theory s working well. The record for the week is 29, so we were 4 short of that, but 3 above the median. We did have a couple of zero-probability sightings, a Hermit Thrush and a Pacific-slope Flycatcher. All in all, a very nice walk.
