Walk lasted between 12:00 and 13:50. Tournament Park was open.

We dodged the rain and had a pretty good walk. We saw a Snowy Egret for the first time in a long time. And, also a first in a long time were the two spotted towhees in Tournament Park. Once again, my predictor did well; I predicted 23.2 species and we observed 24. We were two over the median and 7 short of the maximum for the week.
