Walk lasted between 12:00 and 14:10. Tournament Park still closed.

It was a good walk. We again beat the predicted number: we got 25 and predicted was 23.3. We got 4 species that were not on the predicted list: Northern Rough-winged Swallow, Red-masked Parakeet, Wilson's Warbler, and Western Bluebird. So, those were not seen in the last seven years during this week. The bird we should have seen but didn't was the Bushtit. There was an 86% probability that we'd see (or hear) it. Same probability next week so surely will get them then. I just LOVE my new check list! At some point I will post a spreadsheet with all 52 check lists for the year on the website.
