2	White-crowned	Sparrow	0
3	White-throated	Swift	0.25
1	Hermit	Thrush	0.12
2	California	Towhee	0.88
1	Spotted	Towhee	0
1	Turkey	Vulture	0.38
1	Orange-crowned	Warbler	0.75
8	Yellow-rumped	Warbler	1
7	Acorn	Woodpecker	1
2	Bewick's	Wren	0.88

Walk lasted between 12:00 and 14:01. Tournament Park was open.

So, we did pretty well but didn't get close to the max for the week and also the all-time max of 37. We observed 28 species, which was 4.5 better than predicted and 8 above the median. Highlights were the Spotted Towhee and the Hermit Thrush. Chris and Marsha saw a sapsucker on their way to their cars. It could well have been a yellow-bellied, but after some email discussion we settled on Sapsucker, species. We have seen both recently and you have to have a good view to tell the difference. We hope to see one or both again this week.

Alan,
