Viveca's comments: "Maintenance yard and tournament park are still closed. Walked lasted between 12:00 to 14:00.

(Cooper's Hawk) on nest and think there was one fussy head sticking up.

(Acorn woodpecker) some young begging for food.

(Rough-winged Swallows) feeding at eye level at north garden plots.

(Not Pacific-slope Flycatchers) one of these was bigger and I would guess Western Wood-pewee.

... be nice when you could all come back and identify flycatchers.
Hope to see you all soon with mask covered faces!"
