Walk lasted between 12:00 and 13:55.

We had a very good walk. We observed 25 species, 2.4 above the prediction and only 3 short of the record for the week. Our zero-probability birds were the Orange-crowned Warbler, Mitred Parakeet, and Northern Rough-Winged Swallow. Best bird was the Spotted Towhee, seen prancing around in the open for all to see. Nice bird, nice walk.
