Walk lasted between 12:00 and 13:45. Tournament Park was open.

It was a relatively short walk because we had relatively few birds. But, our 20 species was 2 above the median but short of the predicted 24.2 and well short of the record for the week of 30.

We didn't have any zero-probability birds. And we missed a couple of 75 percenters, Western Bluebird and Mallard. Nonetheless, it was an enjoyable walk.
