Walk lasted between 12:00 and 13:49. Tournament Park was open.

We had a very good walk, observing 21 species when the predicted was 17.7. And it was pretty warm, which is not so good for the birds, or for the humans. We saw three zero probability birds: European Starling, Red-crowned Parrot, and Orange-crowned Warbler. The standout sighting was of a female Black-chinned Hummingbird. We also had a nice surprise on the walkers side: Bernice Hernandez was in town for a few days and joined the walk, her 3<sup>rd</sup>. Nice walk all the way around.
