Walk lasted between 12:00 and 13:55.

We had a good walk, getting 2.9 species above the prediction and only 2 short of the record for the week. We again saw the mixed flock of Mitred and Red-masked Parakeets, so that was good. We welcomed back to the list 3 Western Bluebirds on the south athletic field. However, the main highlight was Viveca's rescue of a turtle that had fallen into the pond in front of Caltech Hall. There was no way the turtle could have gotten out by itself. So, a good walk and a good rescue.
