Walk lasted between 12:00 and 14:04. Tournament Park was open.

It was hot but the birds showed up. We got a couple of warblers, so Fall migration is under way. And we observed a Ruby-crowned Kinglet and it isn't supposed to be here yet. So, it was a good walk. 17 species was 4 above the median but way sort of the max for the week of 26. Notable misses were Bushtit (75% probable), Band-tailed Pigeon (88%), and Common Raven (75%).
