Walk lasted between 12:00 and 14:10

Wow, what a change from last week! Last week we had 10 species and 95 F and sunny. Today we had 26 species and 70 F and partly cloudy. The 26 was a record for the week! The prediction was 16.7 and the previous record high was 25. We had lots of great birds, including, Black-throated Gray Warbler, Hooded Oriole, and 9 large, dark water birds of some kind circling around. The might have been Cormorants but not sure. Just a great walk, weather wise and bird wise.
