Walk lasted between 12:00 and 13:38. Tournament Park was open.

It was hot but we got back on track. We observed 19 species, and the prediction was 19.5, so I call that good enough for government work. We saw our first yellow-rumps of the season, right on schedule. They will be with us until week 16 of next year. And we saw white-crowned sparrows, which I surprisingly found were not expected. It was a good walk.
