1	California	Towhee	0.50
35	Yellow-rumped	Warbler	1
1	Acorn	Woodpecker	1
1	Nuttall's	Woodpecker	0.25
1	Bewick's	Wren	0.25

Walk lasted between 12:00 and 14:00

We observed 20 species, 0.3 above the prediction, but well short of the maximum for the week of 24. We again saw the Western Tanager, the Red-naped Sapsucker, and the Nuttall's Woodpecker in the Woodpecker Tree over on Arden. We discovered a second woodpecker tree on Arden, across the street and a bit to the south from the first one. It has a lot of rows of sapsucker holes but no woodpeckers seen this time. Another good sighting was the Western Bluebirds out on the South Athletic field. They were only 12% probable but we started talking about them and they suddenly appeared. It was a good walk.
