Walk lasted between 12:00 and 14:06

We got off to a slow start but gradually things picked up. Then at the old Prufrock House on Wilson we hit the tree with a bunch of birds in it, including Black-throated Gray Warbler, Orange-crowned Warbler, and Townsend's Warbler. We wound up with 24 species, 2.4 above the prediction and only 3 short of the record for the week. We had a new walker along, Tristan Donahue, who is Chris's grand nephew. Chris's brother Bill was there too; he had walked the walk once in the past. The Donahues were visiting from Colorado. So, it was a good walk in very good weather for the Colorado-ites.
