Walk lasted between 12:00 and 14:15

Again, we got off to a slow start, but in the end we observed 26 species, 4.1 above the prediction and only one short of the record for the week. Highlight birds were the Say's Phoebe out on the lawn in front of Beckman Institute, a Black-throated Gray Warbler in the same tree as last week on the Prufrock property, and a Red-shouldered Hawk sitting in full view on Arden Rd. Also, we saw American Goldfinch for the first time in a long time. Those were in Tournament Park. It was a very good walk indeed.
