Walk lasted between 12:00 and 14:15. Tournament Park was closed.

This was another great walk. We missed the record for the week by only 2 species. We missed a couple of high-probability birds, such as the Anna's Hummingbird and the Red-whiskered Bulbul, but, on the other hand, we recorded 4 zero-probability birds, including the bird of the day, a Hutton's Vireo.

So, once again, not half-bad.
