Walk lasted between 12:00 and 14:03

We had a big day with 28 species, The prediction was only 20.9 and the record was 31. The record was in reach as we missed at least 3 that could have been: Bewick's Wren, Turkey Vulture, and Red-shouldered Hawk. But, not to be. We did get some unusual ones: Rock Pigeon, Oak Titmouse, and California Scrub-Jay to name three. It was a good walk. Looks like the last walk of the year will be on Friday December 26.
