Walk lasted between 12:00 and 14:07. Tournament Park was open.

We had a new walker, Audrey Wong, a freshman at Caltech, and she brought a camera. I've included a few shots that she and her friend Ethan Lin took on the walk. It's nice to have some photos to include in the report. We had a nice walk with 25 species observed, well short of the record for the week of 31, but also well above the media of 18. We are seeing a high number of ruby-crowns this year, 6 on this walk. And one was showing off his ruby crown. Not often do you get to see that.
