Walk lasted between 12:00 and 14:15

We didn't have a great number of species but we had some outstanding birds. The most outstanding was the Hammond's Flycatcher. I thought it was new for the list, but I checked and we did record it one other time in 1997. So, a very rare bird for us. We also bagged some Western Bluebirds, which we hadn't seen in a while. And the White-crowned Sparrow in Tournament Park was nice. So, all in all, a very fine walk indeed.
