Walk lasted between 12:00 and 14:02. Tournament Park was open.

We had a great walk. We observed 25 species, just two short of the record for the week. We were glad to see the Red-naped Sapsucker back in Tournament Park. And we got a flood of Bushtits, a big flock of Band-tailed Pigeons, some Rock Pigeons, and one California Scrub-Jay, which was a zero probability bird. We beat the median by 5 and the predicted by 3. So, all good.
